

7th Annual
Kansas Healthcare
Ethics Conference

Conversations in Ethics

Wednesday, March 11, 2020

Eugene M. Hughes Metropolitan Complex
5015 E. 29th Street N.

WHO SHOULD ATTEND

If you are a physician, nurse, patient, family member, health care worker, social worker, chaplain or adult care home administrator, you are faced with ethical decisions in health care. Ethical dilemmas can occur in the delivery of health care with decisions about end-of-life care, cost of care, honoring religious decisions of patients, and the use of technology in today's health care delivery.

This health care ethics conference is structured to stimulate discussion of real life ethical issues.

Healthcare professionals as well as the general public can benefit by joining the discussion at this conference.

Objectives

At the conclusion of the conference participants will be able to:

- *Define the three types of ethics.*
- *Describe the physician aided death laws in the United States and abroad. Discuss how capacity determinations can be trivialized and/or misunderstood*
- *Recognize and name the challenge of suffering to our corporate ethical conscience and hear of care.*
- *Summarize the rationale for a systematic approach to improving conversations about patient values and priorities in serious illness.*
- *List the three basic Advance Directives.*
- *Understand the consequences of disparities in access to mental health and substance abuse treatment.*
- *Recognize the applications for mindfulness.*
