Wichita Medical Research and Education Foundation Announces a Research Funding Opportunity for Community Health and Basic Medical Research.

Wichita Medical Research and Education Foundation is pleased to announce the local funding opportunity for community health and medical research. Two \$15,000 grants will be awarded to area researchers.

The purpose of this funding program is to provide investigators with *short-term funding* (seed money) leading to successful application to larger and new funding sources. The areas of research interest are in social/behavioral, biological, genetic, or environmental determinants of disease and/or health, either physical or mental across the life span.

For more information contact Peggy Johnson, Executive Director for more information. 316-686-7172 or pjohnson@wmref-ks.org.

For Release 9 a.m. EDT, September 23, 2004
